The features are quite useful and a lot of use the time and are successful in delivering the best results for your intended projects. The size of the software is not too large. Yes, it is complex and I recommend that you have Adobe Premiere Pro CC Premium edition which is the most stable and solid edition. All the previous features and many more are available in this software. You can't find such an interactive software for photo editing. It has a lot of features like rendering and compositing, stabilization, etc. You can use the powerful mask to remove the background or the parts you want to keep. After that, you can change the brightness and contrast, add filters, blur and merge frames, add and remove watermark, add and remove audio tracks, add GIF frames, and more. You can download it for free and get it in your own Mac or Windows. It has a lot of excellent features that you can use for your work. The interface looks very beautiful and easy to navigate. Adobe Creative Cloud plan is the best for most of the people who are not satisfied with their current one and it has the above-mentioned essential features.
