Currently, Adobe only offers a Windows version of Photoshop CC 2015. A New Plug-in Format The new plug-in format is primarily designed to allow for all the features found in Photoshop that are now available for use in Premiere Pro in one easy-to-update tool. Adobe has developed a new plug-in format, now officially called Adobe Creative SDK, to help 3D editors, interactive marketers, and other creative professionals make the most of the tools in their design software. The plug-in format supports features that were previously not available, like live color correction and live exposure. Further Reading You have to buy a copy of Photoshop CS6, at least, to use this plug-in format. But other Creative Suite 6 plug-ins (see Chapter 16) can use the Adobe Creative SDK version of the plug-in format. A similar plug-in format also exists for After Effects CC 2015. Check the 3D Artisan's Guide for more information on what's new in 3D, along with all the major new features available in 3D Cinema, 3D Character Modeling, and 3D Workflow tools. You can also find information about the new plug-in format on the Adobe website at ` Ready, Set, Go You can take full advantage of Premiere Pro by checking out the following sequence of tutorials: Find out how to move footage into your project using your clips' location data. Understand how to correct exposure problems using the histogram in Premiere Pro. Learn how to render with ease. Create your own colors and add filters to your render settings. Now that you're more familiar with the

controls and basic features, you're ready to start editing your footage. Part II Making the Right Moves You now know how to use Premiere Pro and all it can do. In the following chapters, you discover the specific tools that best fit your editing style and the project you're working on. Chapter 4: Working with Audio and Sound Audio is a critical part of your video project, but it's not always obvious how to use the tools that you find in a program like Premiere Pro. This chapter shows you how to work with Premiere Pro's audio and sound. Chapter 5: Video Management with the Media Browser The Media Browser is a great tool

Photoshop Elements is great for those who are new to Photoshop, as it's much more accessible. This comprehensive guide will introduce you to the key features, tools and techniques that professional photographers and graphic designers use. Photoshop Elements Photoshop Elements is a creative suite for photographers, graphic designers and hobbyists. It supports most of the features and tools you would expect from Photoshop, but on a smaller scale and with fewer options. The full version of Photoshop is \$1500, while Elements comes in at \$300 and lacks many features you would expect at this price point. Elements is a cross-platform software program, so it's available to download and use from Apple, Android and Windows devices. The Creative Cloud in Photoshop Elements Adobe offers Photoshop for \$199 a year. This is where your design ideas can be developed, tested and made into reality. But what if you do not want to keep paying for Photoshop all the time? With the Creative Cloud for Photoshop Elements, you can unlock every paid feature in the Creative Cloud, meaning you can access your files, edit, arrange and apply layers, save projects, create prints, videos and all the other elements of a professional graphic designer. You can use this in an office or at home, on a laptop, tablet or phone. This version of Photoshop allows you to access your own files in the cloud on any device, and use many of the features included on the full version of Photoshop without paying for anything extra. Elements provides many of the online services you would expect in a standard version of Photoshop, but at a reduced cost. Pros Elements has a few advantages over the full version of Photoshop. UK Business Customer Wins Airbus Order With E.ON and Haligood Customer Brings His Bright Ideas To Land To Provide Full-Service Energy & Infrastructure Solutions to Businesses London, UK – January 13, 2019 – Haligood Technologies plc has won a contract to provide an integrated IT service and 24/7 business process services for E.ON UK. Under the contract, the company will deliver a streamlined IT services strategy and solutions for E.ON's energy and infrastructure customers. As a result, it will provide a breadth of services that will help E.ON better serve its customers, helping them to gain a competitive advantage. "The E.ON business has a large number of large businesses, and we want to make sure we fully support them all. To do this, we need to have a strong, single business relationship that will cover our larger customers as well as our smaller customers," said Sam Faulkner, Managing Director of E.ON Business Services. "This is something that Haligood has always been able to deliver well, and we are glad to be partnering with them." "We had been trying to find a partner for quite some time. Ultimately, we were looking for a company that could provide us a unique understanding of what our customers want. Above all, we want to partner with a company that knows what they are doing in the energy infrastructure services business. That is exactly what Haligood has to offer," said Bill Aronson, Chief Executive Officer of Haligood. "In addition, we can help E.ON with the business of managing its existing customer base, and give them direct support." Under the agreement, Haligood will provide E.ON UK with a blended IT service and managed services platform, designed specifically for large energy companies. It will combine the sophistication of a large organization with the flexibility of a small, nimble company. "Our partnership with E.ON has yielded a wide variety of benefits, including impressive growth, new office leases, investment in new services and processes, and increases in the number of high profile customers. These are strong signs that our partnership has paid off," added Mr. Faulkner. "I'm confident that the innovative services we will be able to offer our customers will provide a higher level of service than what they have previously received." "Our E.ON
