EA SPORTS FIFA 22 includes the most comprehensive roster of over 650 footballing legends from around the globe. As the Premier League’s all-time top scorer Alan Shearer said: “I love FIFA. It’s the best football game on any platform; it’s much more realistic than any other game, and you’re able to pick the likes of Messi or Ronaldo.” EA SPORTS FIFA 22 features the most complete official licensed collection of over 650 players, featuring defenders, midfielders, attackers, goalkeepers, managers, and legends from every league across Europe, the Americas, Africa, Asia, Oceania and the Middle East. New innovations and enhancements to gameplay - PES Style Powered by EA SPORTS, FIFA 22 features an all-new FIFA Pause system that allows players to take a step back from the action and control the pace of the game. The size of the player’s animated character model is also an indicator of player skill, with defenders appearing larger and more muscular compared to attackers. When the ball is in motion, it’s easier to tell where your opponent is and the game feels more ‘on-pitch’ compared to other sports games. EA SPORTS FIFA 22 features more intuitive and improved controls to take the game’s existing gameplay systems to the next level. The new Dynamic User Interface removes time-consuming navigational controls such as zoom, rewind and fast forward. The new Attacking Intelligence lets you control a team’s attacking play in real time, and select up to four dribbling and passing options. And a revamped goalkeeper AI means your goalkeepers make more clear and accurate saves - now your attentions can be fully focussed on your attacking play. The all-new Tactical Touch gives you the ability to move the game around you and your opponent. Pull-backs, centering, and man-marking are now much more responsive and fluid and can be tracked in real time. Zooming in and out of the action, diving, using the wall, curling, and much more are now possible with instant results. And of course you can use your player’s on-pitch instincts to control the play with the new free form play, as well as the ability to instigate tiki-taka like plays. FIFA 20’s revolutionary player intelligence got even smarter - now it’s
