Park Moreau Park () is a prestigious central park in Berlin, Germany. Moreau Park extends over an area of 1,176,000 m². Today, it is mainly a garden park with a large and diverse range of trees and shrubs, including oak, beech, hornbeam, lime, plane, maple, elm, chestnut, ash, birch, horse chestnut, and meadow willows. Important elements include the great linden tree which is a historic symbol of the city; the old children's park ; the arcades that feature over 800 years of history; the crystal clear water; and the pavilions and promenades laid out along the Schlossplatz, the avenue of plane trees, the streamers of water, the cascades, the children's playgrounds, and the lawns. The park even included a zoo and amusement park. History Early history The Moreau Park extends over an area of about 1,300,000 m², of which 1,175,000 m² is public open space. Its name comes from the Moreau Museum, an art collection founded at the end of the 19th century by the Moreau family. The museum today houses part of the Gallery of Modern Art. The Moreau Museum Collection once included the works of Eugène Delacroix, the Serbian painter Miloš Alexović, the Roman and Byzantine artist Janko Plečnik and the Russian artist Fedor Solntsev, as well as the paintings of the 19th century landscape painter Caspar David Friedrich and the American painter Childe Hassam. Later the park was also renamed in honour of Lazare Carnot, the mathematician and the author of the first comprehensive study of the physics of animal movement. Vor new years 2008 - 2009, the area under private ownership, the museum estate and the former zoo which used to be located in

the eastern part of the park was bought by the public sector by the house association BDZS. This strong movement was due to the fact that often the maintenance of this area is the responsibility of the public and also because the realization of this area is more affordable compared to the one covered by the house association as public donations are used. In the years between 1850 and 1900, the first aristocratic garden estates were built, an example of which being the Carlton-garten (Carlton garden), a park in St

The goal is simple, win by accumulating the most Victory Points at the end of the game. If you play well you'll win and achieve that goal. In Tanto Cuore, each player takes on the role of a lord that owns a mansion. During the game players pick their favorite maids from the different types of cards (my cards look like this: More on that later) to fill out the mansion. Employing one or all of these maids allows for different strategy among your other mansion cards. For example, one player might choose to put in the resources that allow them to draw back some cards, while another could buy additional maids to draw in cards. Both strategies could in theory be made to work together! The end result is a deck that you build and play based on the environment around you, depending on what you want to do! Keep an eye out for advertisements at the places where you walk around! You'll see the faces of some very specific maids often advertising special events at specific shops, or hints of other card events that will be taking place at the same time. You can even form a group with 3 or more players and take on the role of the master of a local mansion! What I'm

trying to emphasize is that Tanto Cuore is an extremely social game. You'll be laughing and exclaiming as you play it with a friend, both of you employing your own strategies to handle the cards that are in front of you! The game is extremely easy to learn, while also introducing some new strategies once you've mastered the basics. It even has a special learning mode that goes over the rules and playing strategy without introducing any cards. If you want to play the game without it being the strategic centerpiece of your game night with a friend or family, feel free to play! You'll have to purchase the cards separately, so if you pick it up as a pre-order the price will be much higher than the price for a purchase at the end of the game. For a very limited time, at certain times only, you will also be able to play the game for free, as they are currently preparing a special 'Nintendo wa Tomodachi ga SuKai' deal for the game! For more on the game, including concept art and additional video, see
