GlobeTrotter Connect is a very important app from Option and the company has a lot of experience in the broadband wireless market. GlobeTrotter Connect key Features: *Proximity card technology* *Connects via USB modem *Gets rid of the tedious plugging process *Connects to multiple cards at the same time *A platform for all software from Option N.V *Makes your mobile phone into a modem The proximity card connection is a two way system, you can associate your card to a computer or mobile phone (2 way or 1 way contactless). With the device in standby, you have your card in you pocket and you only have to tap your mobile phone to connect to the Internet. And only when the connection is established, the link goes onto the internet. If you have your mobile phone in your pocket it is ready for use and you don't have to take it out. The complete process takes less than a minute. It's easy to use. The power button on the device will turn the router/modem on or off and the contactless mode on or off. You can associate your card to a computer with just one click. *Gets rid of the tedious plugging process *Connects to multiple cards at the same time When the connection is made, you may add up to 8 cards and connect to them via USB. When you unplug the connected device, the router will release all the connected cards. Whats New Version 1.1.5 :• Fixed issues that have been reported by users in several countries.
